

ACT PowerSafe™

Designed for protection without compromise, **PowerSafe™** is a durable metal enclosure that secures EV wall-mounted chargers against weather, interference, and theft. Suitable for residential and commercial installations, it combines strength, smart cable management, and everyday usability—delivering a clean, organised, and professional charging experience.

PowerSafe™ Options

Wall-Mounted Enclosure:

- Dimensions: **370mm W × 500mm H × 210mm D**
- Finishes: **Black or Light Grey**

PowerSafe™ Pedestal: For locations without a suitable wall, the PowerSafe™ Pedestal provides the same protection in a freestanding format.

- Dimensions: **370mm W × 1000mm H × 210mm D**
- Bolt-down or optional in-ground root installation

Part of a Complete Charging Solution

PowerSafe™ works seamlessly alongside **Power Path™**, creating a fully integrated, safe, and visually clean EV charging environment.
